GREEN'S Atlas and Diary Almanac.

PREFACE

WHY THIS BOOK IS PLACED AT FIVE CENTS.

THE United States has been liberally supplied with *Free Almanacs* for many years. We issued last year a *Free Almanac* which was pronounced by the press and the people generally, as the most attractive and interesting of any heretofore distributed; yet we must say, the principal advantage of a cheap Almanac is only in its monthly calendars. The expense of placing before the millions of people a *Free Almanac*, limited the proprietors to a cheap work, that in the aggregate, including distribution, amounted to almost fabulous sums of money.

The idea suggested itself to us that a family and business Almanac could be arranged that would be of indispensable value during the whole year; a book long needed for universal reference, and worth dollars to every practical man—but to make it perfect and superior to all other works gotten up for sale and profit only, would necessarily require a large additional expense, more than we can afford for a Free Almanac. Being satisfied the people would be willing to assist us in carrying out the project by paying the nominal price of five cents for each book, we have ventured to put it out, and hope you will recommend it, and assist in its distribution.

Almanac should always be carefully hung up in one place, and then you have a Record of the whole year, maps of your country, and calendars for 14 months.

—) MAP OF THE —
NORTHERN STATES

ECLIPSES, 1880.

In the year 1880, there will be six Eclipses; four of the Sun and two of the Moon:

I. A Total Eclipse of the Sun, January 11th. Invisible east of a line drawn through St. Joseph, Mo., and Baton Rouge, La. Visible to the western quarter of North America and to the Pacific Ocean; being central and total along a line distant twenty miles south of and parallel to a line drawn through Monterey, Cal., Mariposa, and Salt Lake City. Elsewhere it will be *partial*.

The Eclipse will be begin as follows: Denver, Colorado, 4h. 1m. A.; Santa Fe, N. Mex., 4h. 1m. A.; Salt Lake City, Utah, 3h. 24m. A.; Virginia City, Nevada, 2h. 48m. A.; San Francisco, California, 2h. 35m. A.; Monterey, California, 2h. 38m. A. The Sun setting more or less eclipsed.

II. A Total Eclipse of the Moon, June 22d. Invisible generally to places in the United States. Visible to Asia, Australia, the Pacific Ocean, and western edge of North America. To places in California the Moon will set in the morning partly immersed in the advancing shadow.

III. An Annular Eclipse of the Sun, July 7th. Invisible. Visible to the southern half of South America, to Cape of Good Hope, and South Atlantic Ocean.

IV. An unimportant Partial Eclipse of the Sun, December 1st. Invisible. Visible to Southern Ocean.

V. A Total Eclipse of the Moon, December 16th. Visible, more or less, to the world generally, except to South America the West India Islands, and eastern portion of North America. Occurring in Washington time, as follows: Moon enters Penumbra 7h. 23m. M.; Moon enters shadow, 8h. 36m. A.; Total Eclipse begins, 9h. 45m. M.; Middle of Eclipse, 10h. 30m. M.; Total Eclipse ends, 11h. 15m. M.; Moon leaves shadow, 1h. 25m. A.; Moon leaves Penumbra 1h. 38m. A. Magnitude of Eclipse = 1.388 (Moon's diameter = 1).

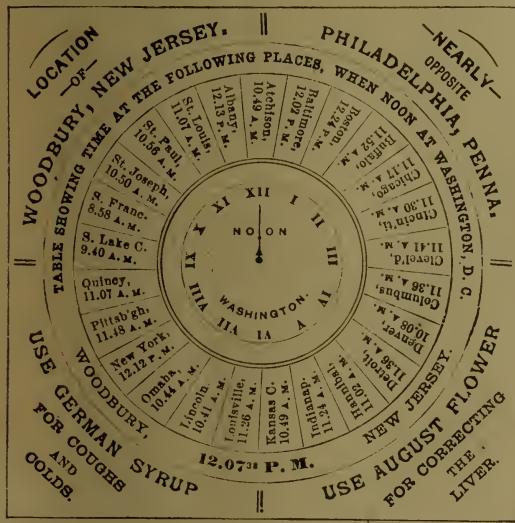

VI. A Partial Eclipse of the Sun, December 31st. Visible to eastern portion of North America as far west as Illinois and Mississippi, to Europe and to North Atlantic Ocean. To all places in the United States where visible, the Sun will *rise* partly eclipsed; the eclipse ending in the morning at the times given, as follows: Portland, 9h. 17m. M.; Boston, 9h. 9m. M.; New York, 8h. 50m. M.; Columbus, 7h. 59m. M.; Philadelphia, 8h. 42m. M.; Washington, 8h. 29m. M.; Charleston, 7h. 58m. M.

An Occultation of Mars will occur March 17th. Visible to the eastern portion of North America; happening shortly after sunset, and lasting generally about an hour and a-quarter.

USE GREEN'S AUGUST FLOWER and BOSCHEE'S GERMAN SYRUP.

Trade  Mark.**GERMAN SYRUP.****Every Man, Woman and Child Should Know it.**

WHAT is Consumption? It is an inflammation of the Lungs, having existed so long, or to such an extent, as to cause decay and sloughing of the parts diseased. Consumption, proper, can never be cured, but nine cases out of every ten of what is pronounced consumption, even by Physicians, is *not consumption of the lungs*, and can be cured, even when the patient has been given up to die by his friends. When inflammation attacks any external part of the body, to such an extent that mortification sets in and sloughing takes place, there is no cure for it known to medical skill but amputation. So with decay and sloughing of the lungs. It cannot be cured, because amputation would be impossible to perform in the chest, but almost every affection and disease of the lungs is called consumption by the people; ninety-nine of these cases out of every hundred can be, and are, cured every day by

DR. BOSCHEE'S GERMAN SYRUP.

Do not give up and think that you or your relations are dying with consumption; when really it is only some of the following causes of consumption:

Cold settled on the Lungs, causing temporary Inflammation, Irritation, Coughing, &c., Pneumonia, Lung Fever, Inflammation of Pleura surrounding the Lungs, Hemorrhages of the Lungs, caused by the little air cells and blood capillaries being so inflamed as to become ruptured, and fifty cases out of every hundred of so-called consumptives, when the patient has a dry hacking cough, pains in the breast, back and side, and no relief can be obtained, are caused by Dyspepsia and Liver Complaint. The blood is so impure, that the lungs are over exerted in trying to relieve the blood from impurities left there by diseased liver, kidneys and other organs depending upon a healthy liver and digestive apparatus, and so much foreign matter being carried through the lungs, creates an irritation which is not consumption, and can only be relieved by removing the cause.

HOW TO CURE.

DR. A. BOSCHEE'S GERMAN SYRUP will quickly cure all diseases of the lungs, all inflammation and irritation, such as severe colds, coughs, hemorrhages and all diseases connected with the throat and lungs as above described. When the bowels are a little constive and the patient is affected with Dyspepsia or Liver Complaint, I would recommend to use in connection with the **GERMAN SYRUP** the **AUGUST FLOWER**, as referred to on the other page, and you will be surprised at the quick relief and change for the better, with perhaps a disease that doctors and every effort have failed to cure you of for years.

The **GERMAN SYRUP** was dispensed a number of years in Germany by Prof. Boschee; after his death I purchased the receipts from his nephew and introduced it into the United States. No medicine has ever yet been introduced to the American people like it. Go to your druggist and get a bottle. It has now been tried by not less than five million people for all the Coughs, Colds and Lung affections peculiar to this country. Druggists and Physicians have watched its wonderful effect for the past eight years with great satisfaction and astonishment. So successful was the preparation among the Consumptives on its first introduction into this country, that I commenced shipping to druggists, in all the different towns in the United States, *Sample Bottles* to be given away to the afflicted, until 2,400,000 bottles were distributed "free of charge." The result was thousands of letters were sent me of praise and thanks, and not one letter was received of dissatisfaction or disappointment.

THE PEOPLE WANT PROOF of the merits, safety and virtue of medicine they are to place their lives upon. For this reason and to satisfy myself of the universal adaptability of **GERMAN SYRUP** to suit all cases of Consumption and Lung Diseases on the Western Continent, I adopted the above plan. Ask your druggist about **GERMAN SYRUP**, read this Almanac carefully, or send and get the list of one thousand letters of recommendation from prominent business men and the people generally; or get a sample bottle for ten cents and try it. Regular size bottles are only 75 cents. Three doses will relieve the worst case of recent Cough.

Follow our directions, page 9.

→People Demand Protection.—Patent Medicines←

What are they? As a general thing they are prescriptions having been used with great success by old and well read Physicians. Thousands of invalids have been unexpectedly cured by their use, and they are the wonder and dread of Physicians and Medical Colleges in the U. S., so much so, that Physicians graduating at Medical Colleges are required to disown Proprietary Medicine, and through them the country doctor loses his most profitable practice. Now as a manufacturer of Proprietary Medicine, I would advocate most cordially, in order to prevent the risk that the sick and afflicted are liable to, almost daily by the use of Patent Medicine put out by inexperienced persons for aggrandizement only, and the employing of inexperienced and incompetent doctors by which almost every village and town is cursed; and men claiming to be doctors who had better be undertakers, experimenting with their patients and robbing them of their money and health. I say for the good of the afflicted, I would advocate that our government protect its people by making laws to regulate the practice of medicine by better experienced and more thoroughly educated Physicians, and thereby keep up the honor and credit of the profession, also form laws for the recording of receipts of Proprietary Medicines, under examination and decision of experienced Chemists and Physicians appointed for that purpose before they are licensed for general use. I would most cordially place the receipt of **Boschee's German Syrup** and **Green's August Flower** under such laws, had I the proper protection, and thereby save the prejudice of the people, and avoid the competition and imitation of worthless medicines, I am at all times ready and willing to use my name and money for such purposes. Being educated in Drugs and Medicine since I was sixteen years old, and having spent years in the study of Medicine, I became disgusted at the low grade the profession was protected in, I left and went into the wholesale business at Baltimore—among all the thousand articles we sold, the **Boschee's German Syrup**, which we were agents for in the U. S. of A., seemed to take root and work from its own merits a wonderful trade. After the death of Prof. **Boschee**, of Germany, my father succeeded in buying the receipt. I was astonished at its composition. It far excels any American prescription I ever met with, and is, without doubt, the most certain remedy known for the cure of Consumption and all Throat and Lung troubles, and I only regret we have no protection by publishing its receipt so that Physicians might use it and recommend it even more liberally than they do now.

—:—

"What is the matter?" asked a lawyer of his coachman.

"The horses are running away, sir."

"Can you not pull them up?"

"I am afraid not."

"Then," said the lawyer, after judicial delay, "run into something cheap."

A good example is the best sermon.

WHAT IS HOME WITHOUT A MOTHER.

Mrs. Gaddabottiski runs out to tell her neighbors about the merits of **GERMAN SYRUP** and **AUGUST FLOWER**, and leaves Mr. Gaddabottiski in charge of the household. His success is illustrated by the above.

Mansfield, Ohio, November 26th, 1878.

MR. G. G. GREEN:—We have special reasons for recommending your goods, especially **Boschee's German Syrup**. We know to a certainty that it cured, or nearly so, our own mother of hemorrhage of the lungs.

LINDSEY BROS.

Consumptives leaving home for change of climate, do not fail to carry with you a quartet of a dozen of **German Syrup**. It will give you good nights' rest, free from coughing, and easy light expectation in the morning.

Did you ever see a woman throw a stone? This perspicacious member of the human family is up in the garret sorting over paper rags. She receives, by intuition, information that a hen has somehow got into her verbenia bed. With characteristic agility she descends to the garden, and gracefully picks up a stone, dropping off her glasses and losing a spool of thread, a pair of scissors and a tape-line out of her pocket in the operation. She peeps around the corner of the house and spies the fowl. Cautiously she advances until near enough, then she elevates herself, throws back her neck, poises most gracefully her left hand, and lets fly, and—strikes her next door neighbor, who happens to be in the garden weeding, plump on the nose. And the hen, oh, where is she? Reader, this is no fancy picture. You never knew a woman to hit anything with a stone she ever aimed at, even were it the broadside of a barn; but give them a small child across their knee, and (we know by experience) they never miss the mark. And yet we love them.

Only a ring is necessary to engage a wife, but nothing short of cash will secure a good hired girl.

A WORD TO THE RICH,

Which Everybody Should Read.

Among the wealthy class more particularly, are to be found the most cases of weak Lungs and predisposition to Consumption, and of course their first thought is to employ their family physician, which is all well enough, but not to continue to doctor themselves to death, and ridicule any well-known and well-tried preparation that may come to their notice, and actually turn a deaf ear to all evidences surrounding them of their merits. There is really no good sense in this, as physicians themselves are compelled more or less to experiment with their patients, and use such things as observation in their practice has convinced them are too good and too successful to be ignored, and thousands of prominent physicians to-day use **Boschee's German Syrup and Green's August Flower** in their practice as their own prescription, as hundreds of letters in our office will corroborate. Therefore we ask the wealthy, the literary, the statesman and physicians themselves, in case of failure to get relief from any throat or lung disease, to just try *one bottle* of **German Syrup**. It was the favorite prescription of Professor Boschee (Bo-schee), of Germany, which, after his death, I succeeded in purchasing from his nephew. Eleven years ago it was not known in this country, now 80,000 dozens are sold annually in the United States. It works like a charm. Does not dry up a cough and leave the disease behind like some of our American preparations, but strikes directly at the cause, carries off all phlegm and morbid matter that accumulates in the lungs and throat, and heals them. The active principles of Gum Arabic are extracted from the Gum, and other German processes used in making this preparation not employed in this country.

We have received within three years over 1000 letters from Druggists, Physicians and Patients themselves, of unexpected cures, where the pronounced Consumptives were confined to their room or bed and given up by their physicians and friends, who, as a relief only, took **German Syrup** and were entirely cured. We intend to publish a list of these letters for distribution soon, as we feel it our duty to give the poor Consumptives all the information in our power. We have but little room in this Almanac but will give a few letters as samples of those we are daily receiving, please read them.

—:o:—

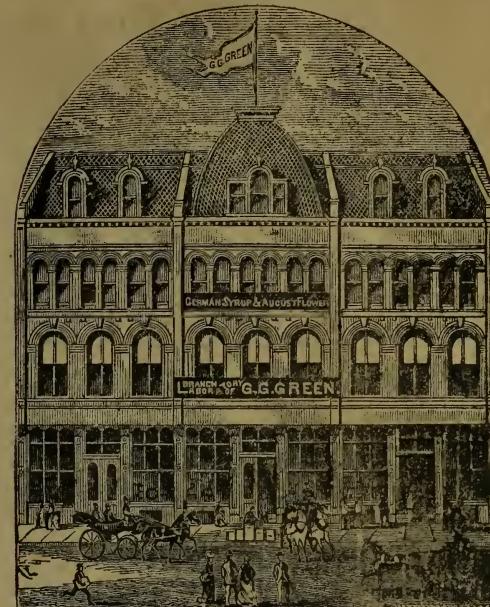

“Papa, didn't you whip me once for biting little Tommy?” “Yes, my child; you hurt him much.” “Well, then, papa, you ought to whip sister's music master, too; he bit sister, yesterday afternoon, right on the mouth; and I know it hurt her, because she put her arms around his neck and tried to choke him.”

They sat in the parlor, and he squeezed her hand. “Oh! would that this hand were mine!” he sighed.

“Why?” she simpered.

“Because, if it were mine, I could knock bullocks down with it better'n with a sledge-hammer.”

The last seen of that young man he was trying to climb to the top of the house by means of the water-spout.

VIEW OF BRANCH LABORATORY, TORONTO, ONT.

—:o:—

DIRECTIONS

FOR USING

Boschee's German Syrup.

The most speedy and greatest remedy in the world for the cure of diseases of the Throat, Lungs and Chest, such as Consumption, Hemorrhages of the Lungs or Stomach, Pneumonia, Asthma, Bronchitis, Pleurisy, Pains in the Chest, Severe Colds settled on the Breast, Cough attending old age, and all complaints of a Pulmonary nature.

Special Notice—**German Syrup** does not dry up a cough and leave the inflammation and fever behind it, but loosens the phlegm and morbid matter, relaxes the tissues, allays the inflammation and permits nature to heal the Lung tissue and diseased parts. Gives the Consumptive a good night's rest, free from coughing, and a light and easy expectoration in the morning. If Consumptives are not too far gone it will cure them.

Dose.—For an adult, teaspoonful every four hours. For a child two years old, 5 to 20 drops; 5 years old, 20 to 30 drops; 8 years old, one-half a teaspoonful; 12 years old, small teaspoonful. If it causes sickness take less doses. I condemn the practice of drinking out of the bottle, take according to directions. If Cough is very severe, you may take every three hours for a short time. **August Flower** should be used in connection with **German Syrup** if the bowels are costive, one good dose at night. Coughs are often caused by Dyspepsia, called Dyspeptic Coughs, the **August Flower** will cure these coughs when **German Syrup** if used alone might fail.

USE GREEN'S AUGUST FLOWER AND BOSCHEE'S GERMAN SYRUP.

→WONDERFUL: SUCCESS.←

Eleven years ago I was engaged in the Wholesale Drug and Medicine trade at Baltimore. We were agents for the U. S. of A., for **Boschee's German Syrup**. It was made in a small way by the nephew of Prof. Boschee, of Germany, at Baltimore. We knew but little of its merits, and gave it but little attention. However many bottles were sold, and each one brought an increase of trade, until without one word of advertising, orders commenced coming to us from all parts of the country. Wilkinson & Bartlett, now Wholesale Druggists, at Keokuk, sent an order for a half dozen by express, then followed half a gross (the trade starting from parties who had moved to Iowa), thus it soon became known over the U. S., simply on the great merits of the **German Syrup** as a Lung and Consumptive medicine. Seven years ago the demand became so great we left all other business and used our capital for its manufacture alone. At this time, December, 1878, it has the largest sale of any medicine in the world; selling in every town and village in the U. S. of A., British America, Canada (where we have a large factory at Toronto), Australia, and all foreign countries, and during the last four months our factory has been running until midnight to fill its orders. This wonderful success we attribute to the great virtues of the medicine alone, for Cough or any Throat and Lung Complaint. It seems to have no equal. Try it. Price, 75 cents—3s. 3d. per bottle. Sample bottles 10 cents or 6d.

—:O:—

"Want any spices or cloves?" asked a peddler of a saloon keeper on Blue Island avenue one day this week. "Vat for I vant um?" asked the proprietor. "To take away the smell of beer from the breath, of course," explained the peddler. "Take away dot smell of beer!" exclaimed the man behind the counter; "my Gott! you got somedings vat makes der smell stay on, I buys him!" [Exit peddler.]—*Chicago Journal*.

Edison has invented a machine for condensing the noise of the elevated railways in New York, running it down a pipe to the Battery, loading it on the Sound steam-boats and dumping it near Battleborough, Vt. Great man that Edison! The Battleborough people expect to can the noise and sell it for Fourth of July celebrations.

Weather Indications.—A rosy sky at sunset, whether clear or cloudy, indicates *fine weather*.

An Indian-red tint at sunset foreshadows *rain*.

A red sky in the morning bad weather, or much wind—perhaps rain.

A gray sky in the morning, *fine weather*.

→RATES OF POSTAGE.←

The following will show the rates of postage on letters; also the postage on newspapers, books, pamphlets, and all mailable matter to and from all parts of the United States.

LETTERS.

Letters to any part of the United States, 3 cts. per $\frac{1}{4}$ ounce. Drop letters—that is, letters mailed in a city, to be delivered elsewhere in the same city, 2 cts. per $\frac{1}{4}$ ounce.

Postal cards to any part of the U. S., 1 ct. each.

Registered letters are charged 10 cents in addition to the proper postage.

BOOKS, TRANSIENT NEWSPAPERS, MDSE, ETC.

Books, circulars and other printed matter (including *transient newspapers*), seeds, cuttings, bulbs, roots and scions, in packages not exceeding 4 lbs. in weight, for each ounce or fraction thereof, 1 ct. per oz.

Merchandise or samples, in packages not exceeding 4 lbs. in weight, for each ounce or fraction thereof, 1 ct. per ounce.

Newspapers, circulars and periodicals not exceeding 2 ozs. in weight, deposited for *local* delivery, 1 ct. each. Exceeding 2 ozs., 2 cts. each.

All matter not prepaid at letter rates must be so wrapped that it can be examined without destroying the wrapper, and must not contain any writing whatever, inside or outside, except the address; but samples may be numbered to correspond with the numbers in a descriptive letter. Glass, liquids, poisons, explosives, and other dangerous matters are excluded.

MONEY ORDERS.

Money orders can now be obtained at almost any post office. It is the safest way of sending money. Rates on money orders in U. S.: Not exceeding \$15, ten cents; over \$15 to \$30, fifteen cents; over \$30 to \$40, twenty cents; over \$40 to \$50, twenty-five cents. Money orders to Great Britain and Switzerland: Not exceeding \$5, fifteen cents; over \$5 to \$10, twenty-five cents; over \$10 to \$20, fifty cents; over \$20 to \$30, seventy-five cents; over \$30 to \$40, one dollar; over \$40 to \$50, one dollar and twenty-five cents. Money orders to Germany: Not exceeding \$10, twenty-five cents; over \$10 to \$20, fifty cents; over \$20 to \$30, seventy-five cents; over \$30 to \$40, eighty cents; over \$40 to \$50, one dollar. Money orders to Canada: Not exceeding \$10, twenty cents; over \$10 to \$20, forty cents; over \$20 to \$30, sixty cents; over \$30 to \$40, eighty cents; over \$40 to \$50, one dollar. No fraction of cents to be introduced.

POSTAGE TO FOREIGN COUNTRIES.

The following table shows the rates of postage chargeable on letters and newspapers to the foreign countries and places named in alphabetical order.

→NOT×SO×COLD←

This morning, as a gentleman, all muffled up in a double geared ulster, fur collar, big gloves, and a red nose, came steaming down Vine street hill, like a boiler with the safety valve open, he saw a tramp in a linen duster, cotton pants that did not reach his ankles by six inches, no socks, no gloves, toes sticking out 'round the circumference of his broken shoes, and a hat without a crown, sitting on the stile, whistling, "In the sweet summer time long ago."

"Hello!" said the gentleman, with a convulsive shiver.

"The same to you, sir," said the tramp.

"Isn't it very cold there?"

"Not so awful very, as it might be, but it ain't so mighty rotten hot, neither," and as the gentleman passed on, that man of sorrows, unacquainted with ulsters, began to whistle "When the spring time comes, gentle Annie," as melodiously as a lark on a May morning.—*Cinn. Times.*

CICERO, IND., February 1st, 1879.

G. G. GREEN, *Dear Sir*—Goods and almanacs came all right. They are the best selling medicines in the house, and I sell more of the **German Syrup** than all others combined.

Yours, &c., A. R. TUCKER.

An Enraged Female.— "Household Departments" are very good adjuncts to a newspaper in their way, when edited by a woman, but the male journalist who dabbles with the heaven-inspired mysteries of cooking, runs a frightful risk. The editor of the *Weekly Petalumna Peavine* started a column of that kind recently, and a few days afterwards a fierce-looking female came into the office, carefully concealing some object behind her apron.

"Are you the man that published that new and approved way to make currant cake?"

He said he was.

"You said to mix washing soda with the flour, and stir in a little corn meal and sweet oil to give it consistency!"

"I—I—believe so."

"And to add fifteen eggs and some molasses, and two ounces of gum arabic, and set in a cool place to bake?"

"I think that was it."

"Well, take that then," said the indignant housewife knocked him down with a weapon that felt like a sand-club, but which he felt in his heart must have been a half-baked hunk of cake, constructed on the *Peavine* pattern.

Children after active play often thoughtlessly sit on doorsills and thus take slight cold; relieve your anxiety by giving them a small dose of **German Syrup**, it will work like a charm.

There is in every true woman's heart a spark of heavenly fire, which lies dormant in the broad daylight of prosperity, but which kindles up and beams and blazes in the dark hour of adversity.

The hatred of those who are the most nearly connected is often the most inveterate.

→CHEAP×LIFE×INSURANCE←

Buy a bottle of **Boschee's German Syrup** and always have it convenient to use, in case you contract a cold, even though it be ever so slight. Remember, 75 cents invested in **German Syrup** may insure you many years of life, that you might not otherwise be permitted to enjoy.

—:o:—

All persons traveling during the winter and changeable seasons should carry with them a bottle of **German Syrup**. Three doses will cure any ordinary cough or cold.

They were in a railroad car, journeying to Chicago. On the opposite seat was a man of commanding figure and massive brow, and thoughtful expression.

"What a fine countenance, James, I wish I knew his occupation."

"May-be he's a rich lawyer."

"There's too much benevolence in his face for a lawyer."

"He may be a banker."

"Not a bit of it! A man with such a heavenly expression couldn't content himself with money getting. His aim in life is higher than that."

"I guess you are right, Amelia. I'll take your word and his for it."

At the next station an inquisitive farmer took a seat beside the man with a noble brow, and asked him about his vocation. Amelia held her breath and listened to the reply. It was this:

"I keep a saloon and a meat shop. My wife sells beer, and I do my own butchering."

A boy went to his father crying, the other day, and told him that he had kicked a fly that had a splinter in its tail.

THE×DEATH×RATE×OF

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it, and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had **Boschee's German Syrup** been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all the diseases of the Throat and Lungs, **Boschee's German Syrup** has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

→CONSUMPTION←

The general term "Consumption" is an incurable disease, yet there are cases where nature has made its own cure, but those cases are scarce, and the disease is becoming alarming to the present generation, in some sections one death to every five is from Consumption. This can be avoided, and should be; our people are too careless about an ordinary Cold or Cough and all the symptoms of Throat and Lung Affections. Particularly persons born from Consumptive parents should always have a reliable preparation on hand to take in the first indication of Throat and Lung troubles, and by carefully watching, they may carry themselves beyond middle life and continue to live to a good old age. Judging from the thousands of letters received from Physicians, Druggists and the afflicted, and the immense demand for **Boschee's German Syrup** within a few years, I can conscientiously recommend it as the most reliable preparation known. Two or three doses will relieve an ordinary Cough. It throws off the morbid matter, relieves the unhealthy inflammation, and heals the lung tissue. It is not necessary to use dozens of bottles to try it, for your particular case, if one or two bottles does not relieve you, and does you no good, we believe nothing will, although

we have received information of thousands of so-called Consumptives having been cured, yet for the good of my fellow beings I would not recommend to continue any medicines that seems to give you no relief after a short trial. Consumption should not be trifled with. All Throat and Lung diseases require speedy relief. Children, the strong and healthy, the rich and the poor should never during the changeable seasons be without a bottle of **German Syrup**. For sale in all parts of the world. Regular size, 75 cents. Sample bottles, 10 cents.

—:O:—

BERRYSBURG, PA.

Mr. G. G. GREEN:—Two years ago I was troubled with a severe cold, and tried every remedy I thought would be good. Being in Harrisburg, a druggist gave me a sample bottle of your **German Syrup**, and finding it was good, bought two bottles which cured me. Some of my friends were alarmed and thought I was consumptive, but I am to-day a hearty man and would not be without your preparation for three times its cost. Every one that I persuaded to try it is satisfied and will buy again.

JOS. F. ROMBERGER,
Dealer in General Mdze.

The waters very often get angry, and then you see the waters pour.

BEDFORD, MASS., March 20th, 1879.

Have tried the medicine on myself and can recommend it to others with perfect confidence. Almost the severest cold I ever had yielded readily to the German Syrup.

Yours truly,

ELIJAH W. STEAMS, Druggist.

Preservation of Eggs.—The sure and simple method of keeping eggs sound by smearing the shells with linseed oil has long been practiced. The oil forms a sort of film over the shell, thereby preventing the two immediate causes of decomposition—evaporation from and penetration of air into the egg.

The latest slang phrase is: “O, you’re too new, the dust sticks to you.”

All the charms possessed by some men are what hangs in front of their vests.

It takes a good deal of grief to kill a Paulsboro’ girl just after she has got a new spring bonnet.

“Buy where you can buy the cheapest,” is good enough advice; but we notice now-a-days most everybody buys where they can get trusted.

A young lady said to her lover: “William, how far is it around the world?” “About twenty inches, my darling,” replied he as his arm encircled her waist. She was all the world to him.

The following unique epistle was picked up in the street the other day: “Dear Kup; The reason I didn’t laff when you laft ad me in the post-ofis yesterdays was becaus I hev a bile on my face, and kan’t laff. If I laff she’ll burst. But I luv you, Kup, bile or no bile, laff or no laff. Yure luvin Kate till death.”

→SAMPLE + OR + TRIAL + BOTTLES←

Of Medicine originated with us several years ago when first introducing our preparations to the public. Confidence in the medicines induced us to do this that the people might satisfy themselves of their merits without cost. Our increasing business every year has created such a demand for them that we have almost decided to advance the price of the samples, or withdraw them from the market, as the present rates do not compensate for the trouble and expense of handling them. Besides, the reputation of our Preparations is now fully established and that they are all we claim for them is acknowledged by all dealers. The samples are put out only as trial bottles, to meet the wants of persons who “have no faith” in advertised medicines, or who have been disappointed in others, and with the understanding that only one sample bottle will be sold to an individual. Therefore purchasers cannot be offended, should a Druggist remind them of this fact, and that our bottles are *honest*—the medicine in the large bottles being the same as in the samples.

→VERY x EFFICACIOUS←

Daily News, Raleigh, N. C.

Mr. G. G. Green, of Woodbury, N. J., should be regarded as a benefactor, since he is now engaged in giving to the suffering public one of the most efficacious remedies known. This is **Boschee's German Syrup**, which possesses really wonderful curative powers in Lung diseases. Mr. Green has a magnificent manufactory and laboratory, at Woodbury, N. J. and is filling orders from all parts of the world for medicine. It is considered to be unequalled as a specific for Lung and Throat Diseases.

Rocky Mountain Herald, Denver, Colorado.

Mr. H. M. Guild, the business agent who travels for the manufacturer of **German Syrup** and **August Flower**, two of the most popular medicines of the age, is on a business trip to the druggists of Denver, after a successful tour through California, Oregon and Nevada where these medicines have a great run.

A ten dollar greenback was received at the First National Bank in Olean, N. Y., a few days ago, across the face of which was inscribed: “This is the last of a fortune of one hundred thousand dollars left me by my uncle, Jasper Gould. Beware of wine and women!”

A Pennsylvanian boasts that he makes a soap that would “wash a politician’s character white as snow.” There must be a good deal of “lye” about that soap.

→A x GENTLE x HINT←

Philadelphia Daily Times, Feb'y 5, 1879.

“Death rate for month adults 848, minors 229, total 1077;—from Diseases of the Respiratory Organs, adults 342, minors 229; making 40 per cent. of death from diseases of the Throat and Lungs.”

CAUTION.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of **Boschee's German Syrup** kept about your home for immediate use will prevent serious sickness, a large doctor’s bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. **German Syrup** is now sold in every town and village on this continent. Sample bottles, for trial, 10 cents; regular size, 75 cents.

→UNSOLICITED TESTIMONIALS←

HUNDREDS of unsolicited letters are coming into our office, weekly, from prominent men who seem anxious to tell us of the wonderful cures and great merits of **German Syrup** and **August Flower**, but we have not room to print them here. We print a few, however, such as are being received now, from Physicians, Druggists and the people; not old stale letters from a class of people always ready to write them, but from intelligent and responsible persons who can be written to for more full statements. These letters are sent without any solicitation, and every day brings an increased number of them. We have thousands of them, and if desired will print them in pamphlet for free distribution.

ST. LOUIS, MO., November 9th, 1878.

Mr. G. G. GREEN:—Can you let me have your **German Syrup** in bulk? One of our first Physicians prescribes it and I have to open the bottles and put it up in a regular prescription shape. Please answer at once and let me know, if at all, how you will sell it to me per half gallon or gallon. Yours,

W. D. MATHIS, Druggist.

GEOSVENOR DALE, CONN., Sept. 11th, 1878.

Mr. G. G. GREEN:—I have been selling **Boschée's German Syrup** for two years, and it gives the best satisfaction. I also sell the **August Flower**. The way I became acquainted with **Boschée's German Syrup** was as follows: My wife had a bronchial difficulty for over six years, and was under the Physician's care all the time. We made a trip West, when she caught a violent cold and was worse than ever. I went to a Druggist and he recommended **Boschée's German Syrup**. I had no faith in it, but was willing to try anything. I bought a bottle and it helped her; I then bought six bottles, and she took about two of them and it cured her. From this experience I purchased it for the store, and it gives universal satisfaction and I believe it to be the best cough mixture ever offered to the public.

H. G. RANSOM & CO.,
Dealers in General Mdze.

From Thomas McClure, Druggist, Gilboa, Ohio.

In reference to your Cough Syrup it performs almost miraculous cures. There was a young lady living in this vicinity who had gone to Columbus to attend school, she returned home about six weeks ago, pronounced by the best Physicians of Columbus incurable, they claimed that she had the Consumption. The doctors here coincided with the other physicians and she concluded to die, but I persuaded her to try **Boschée's German Syrup**. After trying one bottle she felt better and still continued to use the medicine until she took four bottles. She claims to be perfectly cured, and able to return to school, with many thanks for the wonderful recovery.

From J. C. Davis, Rector St. James' Epis. Church, Eufaula, Alabama.

This certifies that my son had been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of the **Boschée's German Syrup**. I can recommend it without hesitation.

From H. Corbin, M.D., Marcellus, Mich.

Your **Boschée's German Syrup** has proved to be an inestimable remedy for all coughs and colds. One case of Consumption cured, and many others benefitted by the use of it. I recommend it to my patients.

From S. S. Fogle, Druggist, Alliance, Ohio.

The **German Syrup** and **August Flower** are becoming more and more popular with our increasing demand, whilst I, as a druggist, having watched their effects for years, am now ready to confidently recommend them to my customers.

PLATTE CANYON, COLORADO, April 24th, 1879.

Mr. G. G. GREEN, N. J.:—After having been troubled with Dyspepsia for several years, I procured two bottles of **August Flower**, and before finishing the second bottle I felt entirely well. I have heard others speak in the most flattering terms of your medicines. Would be pleased to receive the plan and directions of your residence, as I contemplate building.

Yours respectfully,
M. D. SPENCE.

"OLD LADIES' HOME," PHILADELPHIA, May 8, 1879.

Mr. G. G. GREEN, Dear Sir:—It is with great pleasure that I write you in regard to your medicines received a short time since. Several of the old ladies who have been sufferers from Dyspepsia have been much relieved by the **August Flower** and can now eat almost anything. One lady over 80 years of age has been greatly benefited by its use. Another with a Bronchial Afection is using the **German Syrup** with great effect. I could mention many others here who are using and praising your medicines continually, but will not detain you with a long letter. Would like you to inform me where I can get your Almanac here for a lady friend, have sent one to a friend in London who is a great sufferer from Dyspepsia and Liver Complaint.

Your Friend,

[Signed]

S. H. McCALLA,
One of the Board of Managers.

INDIANAPOLIS, IND., January 22d, 1878.

Mr. G. G. GREEN:—Probably no man living was more indifferent to, or prejudiced against, Patent Medicines than I was five years ago, but four years since being greatly troubled with Dyspepsia, I caught at the straw of the drowning man, by trying one bottle of your **August Flower**. Result, I took more, increasing my weight from 135 pounds to my present avariodipos of 207. I am constantly changing my diet and my habits of sleep and rest, being a traveling man, yet I am as healthy as I could ask for, and I attribute to your medicine the most of the credit thereto.

I. L. BERCH.

From J. L. Pease, Editor and Proprietor of *Connecticut Western News*, Canaan, Conn., May 21, 1877.

Notwithstanding our inability to agree upon a plan for advertising, I will do your medicine justice by saying to you, that I had an obstinate cough throughout the winter and was unable to procure a remedy that would reach the spot. My physician did not succeed in giving me relief, and one day in the early spring Mr. Humphrey, our druggist, persuaded me to try a bottle of your **German Syrup**, in which I found immediate relief. I am fully convinced it is the best medicine for throat or lung difficulties I ever saw or knew of. I would like a full dozen to keep in the house for family use.

From W. A. Mason, Gainesville, Texas.

My wife is of a consumptive family, and for years has suffered with weak lungs, a few weeks since she was attacked with a severe cough and sore lungs. Her physician was satisfied that consumption had set in. I saw your advertisement of **Boschée's German Syrup** and procured a bottle, and to my great astonishment, before she had used one bottle her cough, throat and lungs seemed well. I would not be without your medicine for any reasonable consideration.

From Groesbeck & Wilkinson, Druggists, Harvard, Illinois.

We commenced selling your **German Syrup** and **August Flower** in 1873, and our sales have been increasing every month. They are giving universal satisfaction, and several of our best customers will swear by the **Boschée's German Syrup** as being the best cough remedy in existence. For whooping cough it has no equal. We have just ordered another gross of your Agent this day, who will give you the proportion of each remedy to send.

ELLIS, MO., February 19th, 1879.

Mr. G. G. GREEN, Dear Sir:—Your medicines arrived to-day all right. When they are once used they need no further advertising. They give the best satisfaction of any medicine I handle. The **Boschée's German Syrup** and **August Flower** is kept in all houses where once used. They call for no other and buy no other. They are as staple as sugar and coffee. Respectfully Yours,

J. E. VANDIVEER,
General Store and Drugg.

Interior view of car on entering the tunnel.

Interior view of car on emerging, after 5 minutes in darkness.

A wicked conductor of train on new Western Railway calls out, "Long Tunnel, 30 minutes to pass through."

READ THESE FACTS.

IT MAY SAVE YOUR LIFE!

A LARGE majority of the American people are to-day wearing out a miserable and unsatisfactory life from the effects of Dyspepsia, Liver Complaint or Indigestion. Paralysis, Mental Derangement, Suicide, Consumption, Heart Disease, Apoplexy, and in fact almost every disease surrounding us to-day is brought on by deranged Stomach and Liver. With these two organs healthy, man's happiness would be complete as far as this world is concerned, and seventy-five per cent. of deaths would be avoided until good old age,* and we should watch carefully these two organs, read and study all reliable information connected with them, and be prepared at any time to check all those premonitory symptoms of their chronic diseases, such as: *Sour Stomach, Coming up of food after eating, Habitual Costiveness, Dizzy Head, Palpitation of the Heart, Sick Headache, Dyspeptic Cough, Nausea or Sick Stomach, Bad Circulation, Nervous Derangement, Chills, Coated Tongue, Heavy load at pit of Stomach, Confused Mind, &c., &c.*, all depending upon a healthy Liver and good digestion. But you say, how can these be cured? Fully one million and a-half of people in the United States can testify that

AUGUST FLOWER,

GREEN'S GREAT DYSPEPTIC PANACEA,

Is curing all persons that use it. It is now sold in every village and town in the United States, Pacific Coast, Canada, Australia, and all foreign countries. 80,000 dozen were sold last year entirely on its merits. Three years ago (until the Government compelled me to stamp them), I gave away through druggists, each year, over 40,000 dozen bottles, *free of charge*, as a proof of its virtue, and to satisfy those who might have a hesitancy in using a proprietary article not prescribed by their family physician. No medicine in the world has ever given such proof of its merits without cost to the consumer. Go to your druggist and enquire if he has ever sold a bottle of **Green's August Flower** to any customer that did not give perfect satisfaction. We are now printing, in pamphlet form, over 1000 letters from Druggists, saying it is the most reliable remedy they sell, and one they never hesitate to recommend to their most particular customers with perfect confidence of its success; also hundreds of letters from physicians asking information as to its ingredients, stating that it is the most successful preparation they meet with in their practice. It is a vegetable preparation, perfectly harmless and can be used regularly in any family. Will you try it? or continue to suffer on account of your prejudice and skepticism? It will only cost you 75 cents for one bottle and satisfy yourself, or 10 cents for a sample bottle.

* For full explanation, read article on "Stomach and Liver," page 28.

TO x THE x BILIOUS

As we have said before, no organ in the body has more general control over the health of man than the Liver, therefore in the treatment of Dyspepsia, Indigestion, Impure Blood, Affections of the Heart, Dyspeptic Cough, Fever and Ague, the **August Flower** is particularly adapted for its treatment of these complaints, as it regulates the action of the Liver. Yet there are cases when the liver is very hard to act upon, and to get a more speedy effect, would advise a Blue Mass Pill every other night in connection with **August Flower**, but for general use the **August Flower** is strong enough without it.

—.o:—

"Shall we know each other there?" The minister of a fashionable church once preached a beautiful sermon on this subject. He drew the picture of a very beautiful heaven. We would walk in sunlit groves, by the music of waterfalls, and gaze out upon Amaranthine fields. And then too, "we shall know each other there," said the minister, and added, "there'll be no stranger in the New Jerusalem, we'll all be friends." "Beautiful!" said Deacon Quick, as he trotted down the aisle. "A lovely sermon!" said Miss Simpkins to the minister, as she put her bony hand in his. She was stopped by a simple-minded man, who came up, and seizing the pastor's hand exclaimed: "Pastor, I'm right glad we shall recognize each other up there. It will be a great change though, for I've been to your church now going on four years, and not a soul has recognized me yet."

—

Poets never seem to tire writing about the beautiful Spring. It is all well enough provided they keep quiet about the weather, the rains, snows, clouds and blows, bringing their Neuralgia, Indigestion, Impure Blood and Liver Complaint.—However, these can all be cured by using **Green's August Flower**, and the poets can continue the subject, Spring, with as much confidence as ever.

Going through the Rye.

YAWCOB.

Says the captain to Pat,

"Come, I'll have none of that!"

As Paddy of whisky was drinking his fill.

With a satisfied sigh,

As he finished the "rye,"

Says Paddy, "Be jabbers, I don't think ye will!"

—Ogden Junction, Utah, Dec. 18, 1878.

"What!" said a young lady to a sister companion, "you are not going to marry that tall, lean, slender, consumptive-stricken fellow, are you?" "Yes, she is," volunteered the young lady's little brother, looking up from his broken cart wheel; "she's going to marry him and use him for a carpet-stretcher." The boy and the cart wheel passed out through the same door.

—

Why is the busy bee like human contentment?
Because it's a humbug.

THE SABLE MOTHER'S WARNING.

"Ephrahama, come to your mudder, boy. 'Shar you bin!"

"Playin' wid de white folks' chillun.."

"You is, eh? See hyar, chile, you'll broke your old mudder's heart, an' bring her gray hairs in sorrow to de grave wid recklumness an' carryins on wid evil assosyashuns. Habin't I raised you in de way you should oughter go?"

"Yethum."

"Habin't I reezened wid you and prayed wid, and deplored de good Lord to wrap you up in His buzzum?"

"Yethum."

"Well, den, do you s'pose I'se gwine to hab your morals ruptured by de white trash? No, sah! Get in dis instep; an' if I eber catch you 'municatin' wid de white trash any mo', fo' de Lord, nigger, I'll break your black head wid a brick!"

ALTOONA, PA., Nov. 18th, 1878.

Mr. G. G. GREEN:—I hereby acknowledge receipt of your Almanacs for 1879. In relation to your remedies I will state that as an evidence of the virtue of your **August Flower**, I have sold during the past year upwards of three hundred bottles of it, and that it has given entire satisfaction in every case. My father suffered for a number of years with Dyspepsia, and has tried almost all the reputed remedies recommended for the disease, without any relief, and was induced to try the **August Flower**, which he did with the greatest success, and is now perfectly cured; it worked like a charm. I recommend it to all who are suffering with Dyspepsia, Headache, Indigestion, &c. The **German Syrup** for Coughs, Colds, &c., is one of the best medicines I have any knowledge of, and I sell a great deal of it. Both of these remedies are becoming very popular, and I expect to sell them in much larger quantities the coming season.

C. D. TAYLOR, Druggist.

LOUISVILLE, KY., Oct. 11th, 1878.

Mr. G. G. GREEN:—I have good faith in your preparations, especially in your **August Flower**. We Druggists, as a general thing, do not recommend Patent Medicines, because we do not know what they contain. I suffered a great deal with Indigestion, until one day a customer happened to come in and purchase a bottle of your **August Flower**, and boasted of its virtues, &c. As this customer of mine was a reliable man, I concluded to *try* a bottle, thinking if it did not help it would not hurt me, so I took a 75 cent bottle from my shelf and commenced taking it; I must confess, by the time I finished the bottle my Indigestion was gone also, and my avordupois is more to-day than it ever has been. I have since recommended it to my customers and they all seem well pleased with it.

P. F. C. BIEHL, Druggist,
Cor. Preston and Broadway.

—

I clasped her to my heart—my own :

My ecstasy no tongue could speak—
That moment I'd have scorned a throne,

When in my ear,
My love, my dear,
Said, "what's your wages, Bob, a week?"

ENJOY LIFE.

But few, in fact not any, really enjoy life, those nearest to enjoying it are the most discontented, the anticipation of pleasure being the only thing enjoyed, yet many thousand discouraged, disheartened people might not wish for death, or commit suicide, as they do, were it not for the most bitter of all cups, the miserable and discouraging effects of Dyspepsia and Liver Complaint, expecting every day to be carried off by Paralysis, Apoplexy, Heart Disease, Consumption and many other symptoms of Dyspepsia and Indigestion. Now, if you have no faith in Patent Medicines, and have lost hope in your physician, I would ask in good faith that you try only one bottle of **Green's August Flower**, it can do you no harm, if one bottle does not give you astonishing relief, don't use any more.

—:o:—

Scene, station-house on the Stirling and Dumfermline R. W.; enter elderly gentleman in a hurry.

Gent (to a facetious porter)—“Is the train in?”

Porter—“Is it rainin’? No.”

(Old gent sits down for half an hour; porter proceeds to close station.)

Gent (again)—“Is the train in yet?”

Porter (gazing steadfastly at the old gentleman)—“No, it’s not rainin’ yet, nor is it goin’ to rain.”

Old Gent (in a fury)—“The train! I asked if the train was in!”

Porter—“Oh, the train! It was in three-quarters of an hour ago, sir, and has gone.”

(Tableau vivant—brooms, drinking-mug and spittoons—Exit porter.)

—:o:—

••AGUE • CONQUEROR••

There is no disease or affliction more easily cured than the ordinary Fever and Ague of this country, and yet it is one of the most dreaded. I have seen, in miasmatic sections of the country, whole families shaking until their bones would make good clothes-horses. In fact, in some persons, Fever and Ague, Intermittent, Remittent, and kindred Fevers, if continued, bring on other diseases which eventually prove very difficult to cure, and sometimes result in death. The usual remedies resorted to only seem to cure weaker cases, or stop them for a short time, soon to return. The **Ague Conqueror** although a vegetable preparation, containing no poisons, has never failed to cure any case of Ague within our knowledge, and the chills do not return during that season. Price, 50 cents and \$1.00 per bottle. To make a permanent cure of a difficult case it will require a \$1.00 bottle to thoroughly cleanse the system and leave the Liver and other organs in a healthy condition so that the chills will not return. *Read third cover page.*

MOUNT PLEASANT, TEXAS, March 19th, 1879.

Dear Sir:—Inclosed find P. O. Order, &c. Your preparations have given better satisfaction here than any other medicines that purport to do the same work, and your Almanacs, like them, surpass all others.

Yours truly,

W. H. BLYTHE, Druggist.

BLUFFTON, IND., March 18th, 1879.

G. G. GREEN, Dear Sir:—Inclosed find Draft, &c. The sale of **August Flower** and **German Syrup** is on the increase in this place. They are medicines that all Druggists should recommend and encourage their use among their friends and customers. Your Almanacs are splendid, and are kept by my customers for reference.

Yours truly,

JOHN E. STURGIS.

LEVIS, QUEBEC (Canada), Feb. 8th, 1879.

Dear Sir:—It is but a short time since I commenced to sell your medicines in this locality, and it has given satisfaction to all.

Yours, &c.,

S. MARMET, Apothecary.

BALTIMORE, November 3d, 1878.

Mr. G. G. GREEN:—I have quite a sale for your Dyspeptic Panacea, **Green's August Flower**, which I recommend with a great deal of satisfaction. I have used it personally for a severe and long standing case of Dyspepsia, and it has made a perfect cure.

JOHN C. CRONHARDT, Druggist,

Cor. Greenmount Ave. and Madison St.

MOBILE, ALABAMA, Oct. 3d, 1878.

Dear Sir:—I would like every one troubled with Liver Complaint to know that I have been using the **August Flower**. I suffered awfully for years, and I only took three bottles of it.

Yours Respectfully, CHARLES TOENES.

—:o:—

Sensible Advice.

You are asked every day through the columns of newspapers and by your Druggist to use something for your Dyspepsia and Liver Complaint that you know nothing about, you get discouraged spending money with but little success. Now to give you satisfactory proof that **Green's August Flower** will cure you of Dyspepsia and Liver Complaint with all its effects, such as Sour Stomach, Sick Headache, Habitual Costiveness, Palpitation of the Heart, Heart-burn, Water-brash, Fullness at the Pit of the Stomach, Yellow Skin, Coated Tongue, Indigestion, Swimming of the Head, Low Spirits, &c., we ask you to go to your Druggist and get a Sample Bottle of **Green's August Flower** for 10 cents and try it, or a regular size for 75 cents. Two doses will relieve you.

There's no bank, not even a snow bank, that can stand a run all the year round.

The Henpecked Husband.

"There Charley Taylor, these are April showers, and there is the third umbrella gone since Christmas. Yes, turn over in bed and say you don't care. What were you to do? Why let him go home in the rain to be sure. Taken cold, indeed! Well, he had better taken cold than to have taken our only umbrella. Do you hear that rain, Taylor? Nonsense, you don't impose upon me, you can't be asleep. Yes, you do, and is it not a pretty flood and no stirring out of the house for weeks. He return the umbrella? Any one would think you were born yesterday. As if anybody ever did return an umbrella.

"I should like to know how the children are to get to school to-morrow. They shall stop at home, and never learn anything, sooner than go and get wet. When they grow up who will they have to thank for knowing nothing—who, indeed, but their father? People who can't feel for their own children ought never to be fathers.

"Do you hear the rain, Mr. Taylor? I say, do you hear it? But I don't care—I'll go to mother's, to-morrow, I will; and what's more, I'll walk every step of the way—and you know that will give me my death.

"I may be laid up for what you care, as I dare say I shall—and a pretty doctor's bill there'll be, I hope there will! It will teach you to lend your umbrellas again. I shouldn't wonder if I caught my death; yes, and that's what you lent the umbrella for.

"How I am to go to mother's, I'm sure I can't tell. But if I die, I'll do it. No, sir; I won't borrow an umbrella. No, and you shan't buy one. Listen to this: if you bring home another umbrella, I'll throw it in the street; I'll have my own umbrella or none at all.

"It was only last week I had a new nozzle put on that umbrella. I'm sure, if I'd have known as much as I do now, it might have gone without one for me.

"Men, indeed!—call themselves lords of creation—pretty lords, when they can't even take care of an umbrella!

"I know that walk to-morrow will be the death of me. But's that's what you want.

"And I should like to know how I'm to go to mother's, without the umbrella? Oh, don't tell me that I said I would go, that's nothing to do with it, nothing at all. She'll think that I'm neglecting her, and the little money we were to have we shan't have at all—because we have no umbrella.

"And the children, too! Dear things, they'll be sopping wet; for they shan't stop at home—they shan't lose their learning; it's all their father will leave 'em, I'm sure. But they shall go to school. Don't tell me I said they shouldn't; you are so aggravating—you'd spoil the temper of an angel. They shall go to school; mark that. And if they get their deaths of cold, it's not my fault—I didn't lend the umbrella."

At length, I fell asleep; and dreamt that the sky was turned into green calico with whalebone ribs; that in fact, the whole world turned round under a tremendous umbrella.

A schoolboy being asked by his teacher how he should flog him, replied: "If you please, sir, I should like to have it on the Italian system of penmanship—the **heavy strokes upward** and the downward ones light."

Directions for using August Flower.

WHICH cures Dyspepsia and Liver Complaint, and all their effects, such as Indigestion, Habitual Costiveness, Dizzy Head, Sour Stomach, Coming up of Food after Eating, and Palpitation of the Heart, Constitutional Sick Headache, Dyspeptic Cough, Nausea or Sick Stomach, Bad Circulation, and all nervous derangements. The very best thing in all cases where a cathartic is needed. It purifies the blood, acts gently on the bowels, carrying off all impurities that clog up the organic system, invigorates digestion, and makes the whole nervous system and secretory organs free to act, and freely perform their natural movements. **August Flower** should be used in the Spring of the year to stimulate the Liver and purify the Blood, and keep off Fever and Ague and Bilious Fever.

The doses for Adults runs from a teaspoonful to a tablespoonful, taken in sugar and water. The action of this medicine is somewhat affected by its combinations in the stomach, and therefore a positive size dose cannot be given to suit all persons. It is a vegetable preparation and harmless, and you can take it to suit your symptoms, not oftener than three times a day, between meals, and on going to bed. It is the best general Family Medicine in use, as it is a mild natural cathartic and does not weaken the stomach or injure the bowels. It is splendid for children. Dyspeptics should take it when most affected in the day; on the first indication of Sick Headache commence and take three times a day until the liver is working and bowels moved. If it acts too much, stop for a day, and then take smaller and less doses, in cinnamon water. The **August Flower** sometimes varies in taste on account of age, but the older the better, if well corked so as not to lose the flavor of peppermint. **August Flower** should also be used when taking **German Syrup**.

The **Genuine** has the name of L. M. GREEN, Prop., Woodbury, N. J., blown in each bottle and printed on each wrapper; the Revenue stamp has printed on it the likeness and name of G. G. GREEN, the Sole Manufacturer. None other is genuine.

—.o.—

"I meant to have told you of that bucket of coal I left at the bottom of the stairs for you to carry up, Harry," said his wife from the upper landing, when she heard a fall and some tall swearing. "Never mind, I've found it," replied he.

He who is the most slow in making a promise is the most faithful in its performance.

USE GREEN'S AUGUST FLOWER and BOSCHEE'S GERMAN SYRUP.

→AN ASTONISHING FACT←

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it should be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of **Green's August Flower**. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent.

—:0:—

Woman is like ivy—the more you are ruined the closer she clings to you.

An old bachelor adds: "Ivy is like woman—the closer it clings to you the more you are ruined."

→CONVENIENT INTEREST TABLE←

To find the interest on a given sum, for any number of days, at any rate of interest.

At five per cent., multiply the principal by the number of days, and divide by	72
At 6 per cent., as above, and divide by	60

MEASURING GRAIN.—By the United States standard, 2150 cubic inches make a bushel. Now, as a cubic foot contains 1728 cubic inches, a bushel is to a cubic foot as 2150 to 1728, or for practical purposes, as 4 to 5. Therefore, to convert cubic feet to bushels, it is necessary only to multiply by 4.5. *Example.* How much grain will a bin hold which is 10 feet long, 4 feet wide and 4 feet deep? *Solution.* $10 \times 4 \times 4 = 160$ cubic feet. $160 \times 4.5 = 128$ the number of bushels.

TO MEASURE GRAIN ON THE FLOOR.—Make the pile in the form of a pyramid or cone, and multiply the area of the base by one-third the height. To find the area of the base, multiply the square of its diameter by the decimal .7854. *Example.* A conical pile of grain is 8 feet in diameter and 4 feet high, how many bushels does it contain? *Solution.* The square of 8 is 64, and $64 \times .7854 \times \frac{1}{3} = 83.776$, the number of cubic feet. Therefore, $83.776 \times 4.5 = 67.02$ bushels.

Why is a whisper forbidden in polite society? Because it isn't aloud.

the Bile, Urine, &c., to be carried through the Blood, causing irritation and disease—to the Brain, poisoning that matter and affecting the whole nervous system—the Heart and the whole system becomes affected and diseased if allowed to continue. Therefore it is very important that we thoroughly understand the Liver and watch it carefully. A few doses of **August Flower** on the first symptoms of Torpid Liver will purify the Stomach and regulate the Liver.

⇒*THE*STOMACH*⇒

The Stomach is the most sensitive organ of all others, and one of the most important, as on it depends the whole human system for its nourishment. It is controlled by the Brain and Nervous System.—Over mental work draws the nervous influence from the Stomach, and digestion is stopped.—Continued over-loading of the Stomach and habitually piling in of indigestible food,—the indiscreet mixing of incompatible victuals not calculated to be assimilated, such as milk, acids, sweets, salt, fish, preserves, &c., &c.—strong stimulating drinks, and all such abuses of the Stomach cause the nervous system to become exhausted, and withdraws

Respectfully yours, W. W. BLYTHE.

Mr. BLYTHE, *Dear Sir*:—Having one day related to you my long suffering with Liver Complaint, and that terrible disease, Dyspepsia (suffering about ten years), you recommended me to use **Green's August Flower** just to give it a trial, which I did. I bought two bottles of you, and before I used up the first I began to feel its good effects, and now I have used nearly three bottles, and am as well and free from the above troubles as I ever was. I am cured. I give you this that you may have written as well as living testimony.

Yours, truly, F. W. HARGROVE.

MONCTON, N. B., March 21st, 1879.

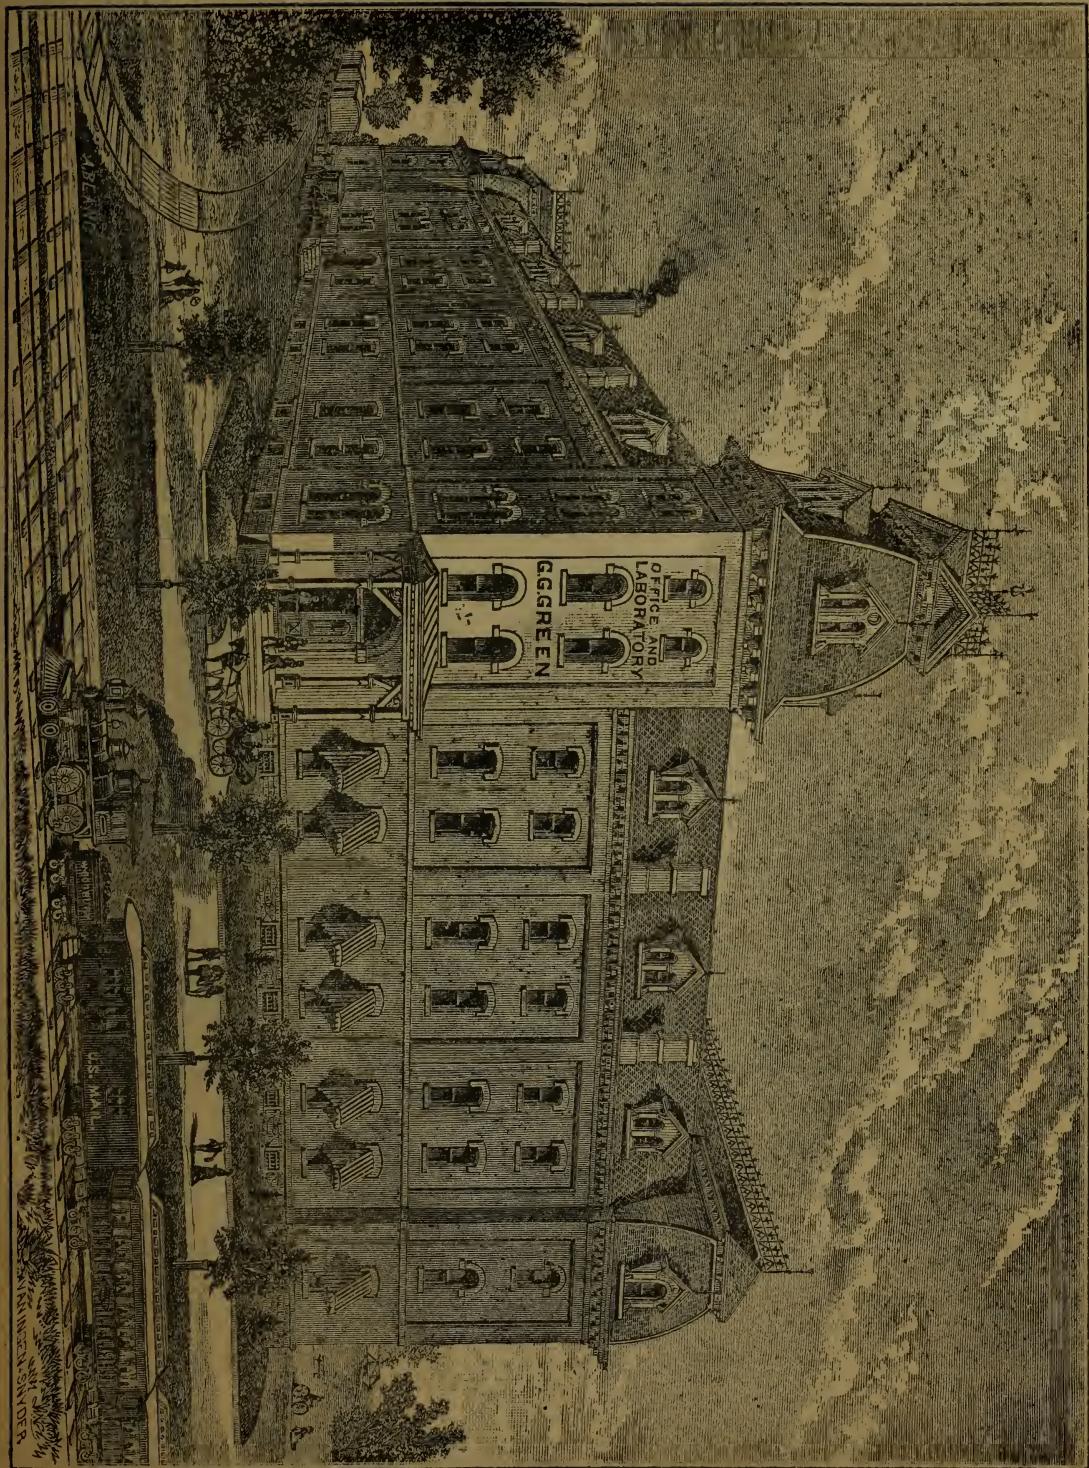

G. G. GREEN, *Dear Sir*:—One of my customers, a gentleman who has suffered all the pangs of torment with Dyspepsia for over ten years, told me he would have given a thousand dollars (and he is able) had he known the value of **Green's August Flower** a year ago. It has made a perfect cure, and he is now able to enjoy all the luxury of a good dinner.

E. M. ESTEY.

BELLAIRE, OHIO, January 10th, 1879.

Dear Sir :—We have a large sale for your medicines, especially **August Flower**, which we consider the best selling preparation we handle. Yours, &c.,
S. Q. HAMILTON & CO., Druggists.

⇒USEFUL x INFORMATION⇒

Best quality of lard melts at 81°.

Cream of tartar rubbed upon soiled white kid gloves cleanses them well.

To prevent ingrowing toe nails—cut or scrape a groove down the centre and pare the ends off square; never cut the sides.

To Preserve Flowers in Water.—Mix a little saltpetre or carbonate of soda with water, and it will preserve the flowers for two weeks.

Recipe for Making the Hands White.—Take some dry Indian meal, wet your hands and rub them with it, then wash them with soap and tepid water.

Fly Poison.—Boil one-quarter ounce small chips of quassia in one pint of water, add four ounces molasses. Flies drink this with avidity, and are soon destroyed.

To Extract Grease from Papered Walls.—Dip a piece of flannel in spirits of wine, rub the greasy spots gently once or twice, and the grease will disappear.

A good cement for mending broken crockery ware may be made by mixing together equal quantities of melted glue, white of egg and white lead, and boiling them together.

To clean Furniture.—One pint linseed oil, one pint vinegar, half pint spirits of wine, or alcohol. Shake before using; gives a good polish and effectually cleans the furniture.

Cure for Earache.—Take tobacco pipe, place a wad of cotton in bowl, drop 8 or 10 drops of chloroform and cover with more cotton, place stem to afflicted ear and blow in the bowl.

Glycerine soap for chapped hands, lips, etc.: Take toilet soap, slice and melt with gentle heat, and add to one pound of soap one ounce of pure glycerine; when sufficiently cool make in balls

A cold application to the bare feet, such as iron, water, rock, earth or ice, when it can be had, is an excellent remedy for cramp. If the patient be seized in the upper part of the body, apply the remedy to the hands.

An excellent recipe for removing paint or grease spots from garments may be had by mixing four tablespoonsful of alcohol with a tablespoonful of salt. Shake the whole well together, and apply with a sponge or brush.

A simple and effectual remedy for the prevention of milk turning sour in summer time consists in adding to each quart fifteen grains of bi-carbonate of soda. This does not affect the taste of the milk, while it facilitates its digestion.

Chapped Hands and Cracked Lips arising from exposure to sudden changes of temperature, are usually treated with cold cream, lard, camphor ointment and spermaceti ointment. Glycerine is frequently used as a preventive.

The leaves of geranium are an excellent application for cuts, when the skin is rubbed off, and other wounds of the kind. One or two leaves must be bruised and applied on linen to the part, and the wound will become cicatrized in a very short time.

To Keep Flies from Horses.—Procure a bunch of Smartweed, and bruise it to cause the juice to exude. Rub the animal thoroughly with the bunch of bruised weed, especially on the legs, neck and ears. Neither flies or other insects will trouble him for 24 hours.

To Keep Away Mosquitoes.—Dip a piece of sponge or flannel in camphorated spirits and make it fast to top of the bedstead. A decoction of pennyroyal, or some of the bruised leaves, rubbed on the exposed parts, will effectually keep off these troublesome insects.

Economical Soap.—The addition of three-quarters of an ounce of borax to a pound of soap, melted in without boiling, makes a saving of one-half in cost of soap, and three-fourths the labor of washing, and improves the whiteness of the fabrics; besides, the usual caustic effect is removed, and the hands are left with a peculiar soft and silky feeling, leaving nothing more to be desired by the most ambitious and economical washerwoman.

To Fold a Coat.—We often see a good new coat so wrinkled and creased by careless folding as to look quite shabby. To fold a coat properly, and so avoid this, proceed as follows: First, spread it on the table, double the left sleeve from the elbow towards the collar, the other the same way; then the left lapel over the sleeve as far as the back seam, and the other in the same manner. Next, turn up the left skirt so that the end may touch the collar, do the same with the right skirt. Give it a light brushing all over, and then turn one-half the coat exactly even over the other half. Folded in this manner, the coat may be put into a trunk, and will keep smooth during a journey of any length.

⇒THE x KITCHEN⇒

White Lily Cake.—Take whites of six eggs, two cups sugar, three cups flour, one cup sweet milk, $\frac{3}{4}$ cup butter, two teaspoonsful cream tartar, one teaspoonful soda.

Yellow Lily Cake—The yolks of six eggs, two cups sugar, three cups flour, $\frac{1}{2}$ cup sweet milk, $\frac{3}{4}$ cup butter, two teaspoonsful cream tartar, one teaspoonful soda.

Ice Cream.—Two and a half quarts milk, not quite one pound sugar, 4 eggs, one half small box gelatine; put in some of milk and place on back part of stove until dissolved, then add balance of milk, flavor and freeze.

Ginger Snaps.—Take three pounds of flour, one of butter, one pint of molasses, one tablespoonful of soda, four of ginger; about three-quarters of a pound of brown sugar added makes them more crisp. Roll thin, cut out, and bake in buttered tins in a quick oven.

Gelatine Pudding.—Half a box of gelatine dissolved in half a pint of cold water. Beat the yolks of four eggs and three tablespoonsful of sugar, and turn into the gelatine and water. Have ready a quart of boiling milk. Pour the mixture into the milk and stir until boiled.

Choice Gingerbread.—Two cups Orleans molasses, one cup brown sugar, one cup lard, two cups sour milk, one teaspoonful soda, one teaspoonful cream of tartar, one teaspoonful ginger, one teaspoonful cinnamon, one teaspoonful cloves, two eggs; by adding currants, raisins, and citron, you have a nice fruit cake.

Rice Bread.—Boil one pound of whole rice in milk enough to dissolve all the grains, adding it boiling as it is absorbed. Have four pounds of sifted flour in a pan, and into this pour the rice and milk, adding salt and a wineglassful (large) of brewer's yeast, Knead, and set to rise till light. Form in loaves, and bake.

Sponge Cake.—Three coffeeecupsful of flour, the same quantity of white sugar, nine eggs and one lemon. Beat the yolks and sugar lightly together; add the juice of the lemon and a small portion of the finely-grated rind; mix thoroughly into the flour half a teaspoonful of soda. After it is well stirred, add one teaspoonful of cream of tartar; mix this well also. To the yolks and sugar now add half of the beaten whites; then all the flour and the remainder of the whites.

Doughnuts.—Heat one quart of new milk, but do not let it boil; add two teaspoonfuls of lard and three cupfuls the same size of sugar, either white or a light brown; when well melted, stir in one cupful of yeast and enough flour to form a thick sponge. Beat long and well, and when the mass seems light and full of bubbles, stir into it the well-beaten yolks and white of one egg. When light, work well and let it rise again; then roll and cut into shape; boil in hot lard until brown.

Buckwheat Cakes.—Three parts by measure of buckwheat flour to one part of Graham flour, and mix with buttermilk instead of water. Keeping buckwheat batter is often very troublesome, especially in mild weather. It can be kept perfectly sweet by pouring cold water over that left from one morning, and which is intended to be used for raising the next morning's cakes. Fill the vessel entirely full of water, and put in a cool place; when ready to use, pour off the water, which absorbs the acidity.

Baked Custard.—Beat the yolks of four fresh eggs for at least half an hour; add five ounces of pulverized white sugar; then stir into the sugar and eggs one quart of rich new milk, cold. Add a teaspoonful of distilled rose water, or any flavoring extract you fancy. Fill your custard cups, and set them in a stone pan half filled with water, which may be warm at first—not hot. Put the pan in a rather cool oven, and gradually increase to a moderate heat. In about twenty minutes dip a teaspoon into one of the custards to ascertain if it is firm. Judgment and great care are needed to attain skill in baking custard; for if left in the oven a minute too long, or if the fire is too hot, the milk will certainly whey.

Yeast.—Take one ounce of dried hops and two quarts of water. Boil them fifteen minutes; add one quart of cold water, and let it boil for a few minutes; strain, and add half a pound of flour—putting the latter into a basin, and pouring on the water slowly to prevent its getting lumpy—a quarter of a pound of brown sugar, a handful of fine salt. Let it stand three days, stirring it occasionally. When it ferments well, add six potatoes, which have been boiled, mashed and run through a colander, making them as smooth as possible. This yeast will keep a long while, and has the advantage of not taking any yeast to start it with. It rises so quickly that a less quantity of it must be put in than of ordinary yeast.

To Prevent Cakes, Pies, &c., from Spilling.—Give the key of the pantry to the children.

⇒ CAUTION ⇐

The immense sale and great popularity of **BO-SCHEE'S GERMAN SYRUP** and **GREEN'S AUGUST FLOWER**, in every town and village in the whole Western Continent, from the North to the South Poles, from the Atlantic to the Pacific, all parts of Europe, Africa and Australia, and with orders continually coming in from the different Islands, some of them almost unnoticed on our maps; for instance, we have received large orders from O. B. Thibou & Co., Island of Antigua, W. I., all of which is the result, *not of advertising*, but the great merits of the medicines exclusively, as we have never advertised heretofore outside of the United States and Canadas.

⇒ NOW × THE × CAUTION ⇐

The effect of this great popularity has caused other persons to copy and follow our style of advertising—putting out samples bottles (which seem to do no good)—calling their preparations “Green's Medicines” taking up similar or approximate names in sound and spelling, using the words “German,” or “Flower,” &c., well calculated to deceive, copying our style of advertising and phraseology on our wrappers, circulars, labels, &c. Be particular, therefore, to notice the name of “**L. M. Green, Prop., blown in each bottle**, and on every wrapper and label printed, “**Proprietor, L. M. Green, Woodbury, N. J.**” Also all persons are cautioned against using the names “**August Flower**” or “**German Syrup**,” and for any information of any persons so using such names in any shape, on any proprietary medicines, I will pay a liberal reward.

G. G. GREEN,

Licensed Sole Manufacturer of

GREEN'S AUGUST FLOWER
AND

⇒ **BOSCHEE'S × GERMAN × SYRUP ⇐**

L. M. GREEN,

Proprietor of Trade Mark,

(Understand that the name of “**L. M. GREEN, WOODBURY, N. J.**,” only shall appear on, in, or about any bottles sold under names of “**August Flower**” or “**German Syrup**,” as patentee of trade marks.)

—:o:—

“**Thare** iz no good substitute for wisdom,” says Josh Billings, “but silence iz the best that haz bin discovered yet.”

To be Trusted.—One grocer asked another: “Is Colonel — a man to be trusted?” “I think you'd find him so,” was the reply. “If you trust him once you'll trust him forever.”

⇒ AUGUST × FLOWER × CURES ⇐

Dyspepsia.—It corrects acidity of the stomach, stops the fermentation of the food and stimulates digestion, expels foul gases, allays irritation, and acts as a gentle cathartic without over-stimulating the secretions, and consequently leaves the bowels in a more healthy condition than ordinary cathartics.

Liver Complaint.—Stimulates the Liver and regulates its action.

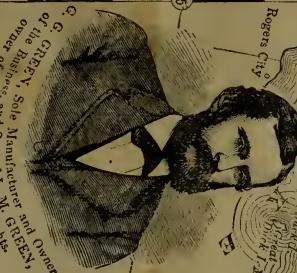

Sick Headache.—The habitual sick headaches peculiar to some persons is permanently cured by the use of **August Flower**—ordinary sick headache, which is only a symptom of deranged stomach and liver, is readily cured by a few doses; medicines that immediately cure the headache do not remove the cause.

Rheumatism.—No medicine has done more to cure Rheumatism, Gout, Neuralgia, &c., than **August Flower**. It purifies the blood, regulates the Liver, and corrects digestion, after which the general system is bound to purify itself of all abnormal deposits which cause these troubles and poison the nervous system.

Habitual Costiveness is happily corrected, and bowels made to act regular, not like most laxatives that make the bowels more costive after their use. The **August Flower** leaves them healthy, and therefore is the best family medicine for children you can use, to regulate them when they complain of Headache, Summer Complaints, Colds, &c.

Dyspeptic Cough.—For a long continued cough, particularly in old persons, which comes from depraved digestion and torpid Liver, **August Flower** is particularly adapted, and should be used when using the **German Syrup**, to keep the system clear, and act gently on the bowels—many coughs and Lung affections are increased by a torpid Liver and Dyspepsia or Costiveness. When a person catches cold, it not only settles on the chest, but affects all organs, and with **August Flower** and **German Syrup** used as per directions, all Coughs and Colds must readily give way. We have never had a clear case of Dyspepsia and its effect, that **August Flower** did not remove, and in every case where it was reported as giving but little relief, we have found chronic troubles, like Consumption of the Bowels, Tumors, and other diseases incurable. If **August Flower** does not relieve you, we advise to get medical aid at once in justice to yourself. Price, 75 cents each.

GREEN'S SUGUE CONQUEROR.

Branch Laboratory at Toronto

TERRE TORRES MONTE MONTE REDWOOD MONTE SAN JUAN MONTE SAN JUAN MONTE PACIFIC COAST

LAST BUT NOT LEAST.

Stop and read a few honest words about

AGUE CONQUEROR.

Are you troubled with Ague, Chills and Fever, Bilious Fever, Remittent or Intermittent Fever, Night Sweats, or any disease that comes from Malaria or disordered Liver and Hot Suns? If so—read what I have to say about *Ague Conqueror*.

What is it? It is an acetic extract of strong tonic roots, combined with Sulphate of Magnesia, &c., and was used many years by an old German doctor who would not let his recipe be known until after his death, when I purchased it and gave it a thorough trial in the United States. It positively contains no Quinine, Arsenic or other poisons, and persons using this remedy are always more healthy after being cured of their Chills than they were previous to becoming sick. It purifies the blood, cleanses the liver, spleen and other secretive organs so effectually that the Chills are never known to return during the whole season, acts as a gentle cathartic and contains aromatic tonics that build up the system.

HOW TO PREVENT FEVER AND AGUE.

Some persons, and particularly those living in certain miasmatic districts, are subject almost every year to Chills and Fever, Intermittent Bilious Fever, &c. By taking a few doses of the Ague Conqueror will prevent and entirely drive away any such attacks; persons having these diseases in their system for two or more years can get entire relief and cure by using a bottle of the Conqueror. PRICE OF THE CONQUEROR IS 50 CENTS AND \$1.00 PER BOTTLE. The large size contains three times as much. It is not put before the people for speculation, as the cost of manufacture is so near that price that I have concluded not to advertise it in a general way, but let its own merits over all other preparations for the same purposes, introduce it to the American people as their standard remedy in future; and ask every person using this remedy to recommend it to their suffering friends.

For sale by all Druggists in the United States and South America, and sold wholesale in all large cities on the Globe.

G. G. GREEN, Proprietor,
WOODBURY, N. J., AND TORONTO, CANADA.

NOTICE.—We have given away hundreds of bottles of our Conqueror wherever we could hear of a stubborn case of Fever and Ague, and never have known of its failing—the first large quantity I put out was made too strong, and too good for customers to take it pleasantly—since that time we have reduced the strength and improved it so that it is palatable and easily taken—I am very particular what medicines I recommend to my customers, and have heretofore stubbornly refused to handle any preparations but *August Flower* and *German Syrup*, as I desire all my customers to have perfect confidence in what I recommend, and say to them, therefore, I have not recommended the Ague Conqueror until I had spread it all over this country and watched its result—I am now fully satisfied there is no better preparation made. It is for sale by all wholesale Druggists in all civilized countries. I have placed the retail price at 50 cents and \$1.00 per bottle, try it. One large bottle has cured as many as five in one family.

Respectfully,

G. G. GREEN.

W. D. C. Beebe

124 Princess Street, Kingston, Ont.
